WPM-310R

Pneumatic Braided Wire Heating Stripper Machine WPM-310R

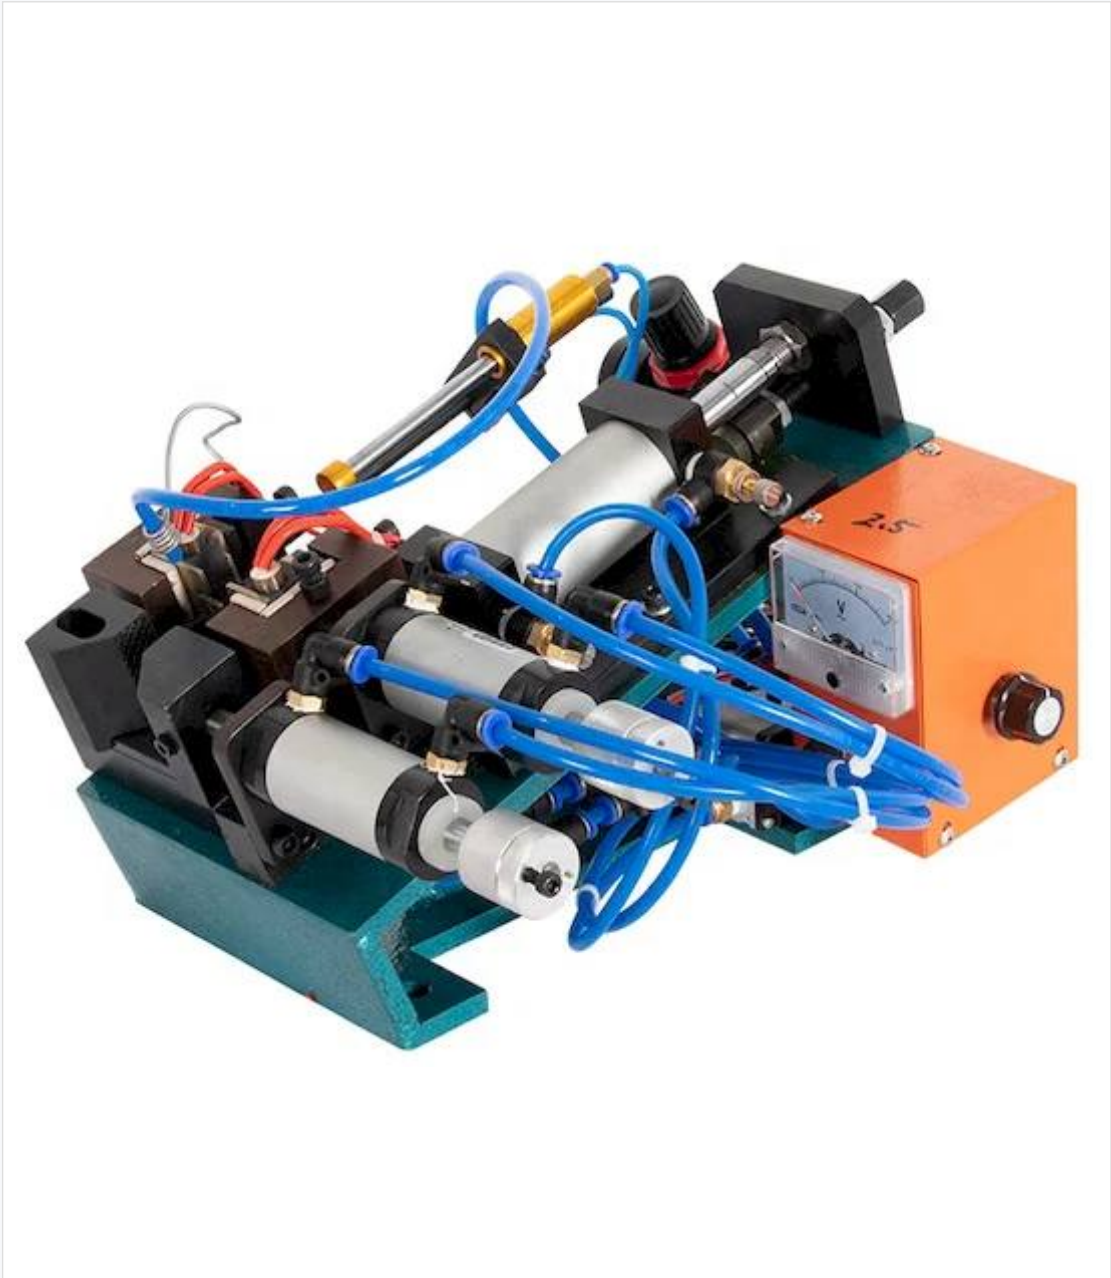

Description

The Pneumatic Braided Wire Heating Stripper WPM-310R is an advanced tool designed for high-efficiency braided wire hot stripping. It features a powerful pneumatic mechanism with braided wire heating technology that ensures insulation is removed seamlessly without damaging the wire core. The machine boasts an ergonomic hatchback design, dual-acting cylinder system for durability, self-feeding oil supply for reduced cylinder wear, and reciprocating strokes for high peeling precision. With precise temperature control up to 450C, it is ideal for processing braided wires, denim data lines, snakeskin power lines, AC/DC power cables, computer cables, and multi-core cables. Suitable for aerospace, medical device manufacturing, and high-end electronics industries.

Specifications

Model Number	WPM-310R
Strip Length	100mm
Wire Range	10mm
Temperature Control	450C
Air Pressure	3-7KG
Power Supply	AC 220V 50Hz/60Hz
Weight	25kg
Dimension	L470*W420*H270mm
Bore Diameter	Dia. 40mm
Stripping Technology	Heating, Pneumatic
Special Features	Ergonomic Hatchback Design, Dual-Acting Cy...
Suitable Wire Types	Braided Wire, Denim Data Lines, Snakeskin ...

WPM-305R

Pneumatic Braided Wire Hot Stripper Machine WPM-305R

Description

The Pneumatic Braided Wire Hot Stripper WPM-305R is an advanced tool engineered for high-performance wire stripping of challenging braided wires. It harnesses pneumatic power to deliver precise and efficient stripping of braided wires, denim data lines, and snakeskin power lines. The machine features an ergonomic hatchback design, adjustable temperature settings, dual-acting cylinder system, and self-feeding oil supply for extended lifespan. With hot stripping technology, it effectively removes insulation without damaging delicate inner conductors. Ideal for data cable manufacturing, power cable assembly, automotive wiring harness production, and aerospace applications requiring precise braided wire stripping.

Specifications

Model Number	WPM-305R
Min. Stripping Length	0.5mm
Max. Stripping Length	50mm
Stripping Ability	Max 7mm
Air Pressure	0.3-0.7MPa
Output Force	31-73kg
Voltage	AC220V/50Hz
Weight	20kg
Dimension	400*300*270mm
Bore Diameter	Dia. 40mm
Stripping Technology	Hot Stripping, Pneumatic
Special Features	Ergonomic Hatchback Design, Dual-Acting Cy...
Suitable Wire Types	Braided Wire, Denim Data Lines, Snakeskin ...

WPM-0.5-10MM2

Pneumatic Wire Stripper 0.5-10mm No Blade Change WPM-0.5-10MM2

Description

The WPM-0.5-10mm Pneumatic Stripper is the ideal solution for quick, efficient, and hassle-free wire stripping. Designed for exceptional flexibility, it accommodates wire diameters from 0.5mm to 10mm. The innovative no-blade-change system revolutionizes wire stripping, ensuring smooth operation and minimizing downtime. This versatile machine effortlessly strips both inner core wires of multi-conductor cables and single-core cables. Built with imported pneumatic components for high precision and extended lifespan, it delivers consistently reliable, clean, and damage-free results. Suitable for sheathed cables, power cables, single wires, and multi-conductor cables across electrical panel manufacturing, appliance manufacturing, automotive wiring, and telecommunicati...

Specifications

Model	WPM-0.5-10MM2
Wire Diameter Range	0.5-10mm
Stripping Length	2-50mm
Stroke	30mm
Air Supply	0.4-0.75MPa
Operation Type	Pneumatic
Blade System	No blade change required
Cable Compatibility	Multi-conductor and single-core cables
Weight	24kg
Dimension	400*370*200mm
Key Benefits	High Precision, Long Life, Smart, Portable...
Applicable Wires	Sheathed Cable, Power Cable, Single Wire, ...

WPM-0.5-30

Pneumatic Multi-Core Cable Stripper No Blade Change WPM-0.5-30

Description

The Pneumatic Multi-Core Stripper WPM-0.5-30 is a game-changing tool engineered for unparalleled precision and efficiency in wire processing. It features an innovative no-blade change mechanism with universal V-blades, simplifying the complex task of stripping multiple wire cores in one seamless operation. The machine handles single-conductor wires and inner wires of multi-core cables up to 35 mm2 in cross-sectional area, with adjustable stripping length up to 30mm. It offers sensor-triggered automatic operation and can be driven electrically or pneumatically. Ideal for telecommunications, automotive, and electrical industries, this versatile machine also functions as a manual wire stripping machine when needed.

Specifications

Model	WPM-0.5-30
Wire Size Capacity	Up to 35 mm2
Strip Length	Up to 30 mm
Blade Type	Universal V-blades (no change required)
Operation	Pneumatic/electric drive with sensor trigg...
Max Wire Cross-Section	35 mm2
Operation Trigger	Sensor-triggered automatic
Drive Options	Electrical or Pneumatic
Application	Single-conductor wires & multi-core cable ...
Suitable Industries	Telecommunications, Automotive, Electrical
Key Features	No-Blade Change, Ergonomic Design, Compact...

WPM-GES

Gas-Electric Cable Stripping Machine

Description

The Gas-Electric Cable Stripping Machine is a versatile pneumatic wire stripper designed for efficient cutting, stripping, and twisting operations. It features an oblique back ergonomic design that conforms to somatology principles, a double-moving cylinder system free of spring breakage, and a self-supplying oil and gas system that provides regular lubrication to reduce internal wear and prolong service life. The unique slide seat ensures stable reciprocating stroke with accurate cutting and stripping. Pneumatic control makes it light, agile, and easy to operate. It is suitable for processing AC/DC wires, power cords, sheath wires, computer wires, electronic wires, multi-core wires, cables, and flat lines of various sizes and lengths.

Specifications

Model	WPM-GES
Power Type	Gas-Electric & Pneumatic
Design	Oblique back ergonomic design
Cylinder System	Double-moving cylinder, oil and gas self-s...
Operation	Pneumatic control, light and agile
Function	Cutting, stripping, twisting
Special Features	Self-feeding oil supply, stable reciproc...

WPM-416

Pneumatic Wire Stripper Machine 0-30mm Dia, 150mm Length WPM-416

Description

The Pneumatic Cable Stripping Machine WPM-416 is a powerful and efficient tool designed for high-speed cable preparation. Engineered with advanced pneumatic technology, it handles cable diameters from 0 to 30mm with an adjustable stripping length of 150mm. The machine features a user-friendly interface, robust construction for industrial durability, bevel design with somatology-inspired ergonomics, dual-driving cylinder system, and self-feeding oil supply for extended lifespan. A special sliding holder ensures balanced stroke and high peeling precision. Suitable for AC/DC power wires, computer cables, electronic cables, multi-core cables, and short cables with small diameters. Ideal for automotive wiring harness manufacturing, industr...

Specifications

Model Number	WPM-416
Stripping Length	150mm
Wire Diameter	0-30mm
Air Pressure	0.5-0.8 MPa
Voltage	220V/50Hz, 110V/60Hz
Force	165-300 KG
Weight	50 Kg
Dimension	L615*W425*H375mm
Cylinder Diameter	Dia. 80mm
Operation Type	Pneumatic, Electric Control
Special Features	Bevel Design, Dual-Driving Cylinder, Self-...
Applicable Cables	AC/DC Power Wire, Computer Cable, Electron...

WPM-330

Industrial Pneumatic Wire Stripping Machine for 0-20mm Cable WPM-330

Description

The WPM-330 Pneumatic Wire Stripping Machine is a game-changing tool designed for high-performance wire processing in demanding industrial applications. Engineered with cutting-edge pneumatic technology, it handles cable diameters from 0 to 20mm with an extended stripping length of 330mm. The machine features robust construction for long-lasting performance, bevel design with somatology-inspired ergonomics, dual-driving cylinder system, self-feeding oil supply, and special sliding holder for high peeling precision. With adjustable settings for wire thickness and electric control for simple operation, it is ideal for large-scale cable manufacturing, electrical panel manufacturing, telecommunications infrastructure, and automotive and aerospace industries.

Specifications

Model Number	WPM-330
Stripping Length	330mm
Wire Diameter Range	0-20mm
Air Pressure	0.5-0.7 MPa
Voltage	220V/50Hz, 110V/60Hz
Force	84-196 KG
Weight	65 KG
Dimension	L1100*W550*H450mm
Cylinder Diameter	Dia. 60mm
Operation Type	Pneumatic, Electric Control
Special Features	Bevel Design, Dual-Driving Cylinder, Self-...
Applicable Cables	AC/DC Power Wire, Computer Cable, Electron...

WPM-315

Pneumatic Wire Stripping Machine for 0-20mm Cable

Description

The Pneumatic Cable Stripping Machine WPM-315 is a state-of-the-art tool designed for the demands of electrical industry professionals. Engineered for speed and accuracy, it harnesses pneumatic technology to effortlessly strip cables from 0 to 20mm in diameter with a stripping length of 150mm. The machine features easily adjustable stripping depth for clean and accurate cuts, robust construction for industrial durability, bevel design with somatology-inspired ergonomics, dual-driving cylinder system, and self-feeding oil supply. A special sliding holder ensures balanced stroke and high peeling precision. Suitable for AC/DC power wires, computer cables, electronic cables, and multi-core cables. Ideal for cable manufacturing, electrical panel assemb...

Specifications

Model Number	WPM-315
Stripping Length	150mm
Wire Diameter	0-20mm
Air Pressure	0.5-0.7 MPa
Voltage	220V/50Hz, 110V/60Hz
Force	84-196 KG
Weight	65 KG
Dimension	L1100*W550*H450mm
Cylinder Diameter	Dia. 60mm
Operation Type	Pneumatic, Electric Control

WPM-310

Pneumatic Wire Stripping Machine 100mm Length WPM-310

Description

The Pneumatic Wire Stripping Machine WPM-310 is a high-performance tool engineered for quick and efficient wire stripping. Powered by advanced pneumatic technology, it effortlessly strips wires from 0 to 15mm in diameter with a stripping length of 100mm. The machine features a user-friendly interface with easily adjustable stripping settings, durable construction for long-lasting performance, bevel design with somatology-inspired ergonomics, dual-driving cylinder system, and self-feeding oil supply for extended lifespan. A special sliding holder ensures balanced stroke and high peeling precision. Suitable for short cables with small diameters including AC/DC power wires, computer cables, electronic cables, and multi-core cables. Ideal for electronics manufacturi...

Specifications

Model Number	WPM-310
Stripping Length	100mm
Wire Diameter Range	0-15mm
Air Pressure	0.35-0.75 MPa
Voltage	220V/110V/50Hz/60Hz
Force	49-115 KG
Weight	25 KG
Dimension	L480*W330*H280mm
Cylinder Diameter	Dia. 50mm
Operation Type	Pneumatic, Electric Control

WPM-305

Pneumatic Cable Wire Stripping Machine for 0-5mm Wires WPM-305

Description

The Pneumatic Wire Stripping Machine WPM-305 is a powerful and precise solution designed for efficient wire processing. This robust machine excels as a wire stripping and cable peeling tool, offering pneumatic power for clean and accurate stripping of wires from 0 to 5mm in diameter. It features an ergonomic bevel design based on somatology, dual-driving cylinder system for durability, self-feeding oil supply for extended lifespan, and special sliding holder for high peeling precision. With electric control for easy operation and adjustable structure for varying wire thicknesses, it is specifically optimized for short, small-diameter cables. Ideal for electronics assembly, computer cable manufacturing, appliance manufacturing, and lighting fixt...

Specifications

Model Number	WPM-305
Stripping Length	50mm
Wire Diameter	0-5mm
Air Pressure	0.3-0.7 MPa
Voltage	220V/50Hz, 110V/60Hz
Force	31-73 KG
Weight	20 KG
Dimension	L400*W300*H270mm
Cylinder Diameter	Dia. 40mm
Operation Type	Pneumatic, Electric Control
Special Features	Bevel Design, Dual-Driving Cylinder, Self-...
Applicable Wires	AC/DC Power Wire, Computer Cable, Electron...
