WPM-5010

Large Square Cable Rotary Stripping Machine for 15-44mm Wires WPM-5010

Description

Tackle Heavy-Duty Cable Stripping with the Large Square Cable Rotary Stripper WPM-N5010 Introducing the Large SquareCable Rotary Stripper WPM-N5010, a high-performance tool meticulously engineered for seamless cable stripping in even the most demanding heavy-duty applications. Its exceptionally robust construction ensures unparalleled durability, while the thoughtfully designed ergonomic grip provides lasting comfort for extended use. Equipped with a highly precise rotary mechanism, this powerfulCable Rotary Strippereffortlessly handles a wide range of large cable sizes, making it an absolutely essential tool for professional electricians and specialized technicians working with new energy charging systems and extra-thick, high-quality cables. Maximize your productivity ...

Specifications

Model Number	WPM-N5010
Keyword Focus	Cable Rotary Stripper
Applicable Cable Type	New Energy Charging Gun Cables, Extra-Thic...
Maximum Stripping Leng...	1000mm (1 Meter), Customizable for Longer
Cutting Wire Diameter ...	15-44mm
Stripping Length Setti...	0.01mm
Cutting Depth Setting ...	0.01mm
Maximum Stripping Laye...	1-2 Layers
Working Power Supply	AC220V/50/60HZ
Power Consumption	2000W
Overall Dimension (LWH...	16806801300mm
Weight	380kg

WPM-25-290

Automatic Multi-Core Sheath Wire Stripper Machine

Description

Multi-core sheathed cable inner core long and short wire cut stripping machine WPM-25-290. This integrated multifunctional automatic machine clamps the outer skin by a cylinder, while a servo motor drives the stripping knife to feed left and right, retracting the knife. Another set of servo motors drives the screw slide rail module to move up and down for peeling and cutting. The machine clamps the outer skin by the cylinder, and the servo motor drives the stripping knife to the left and right feed knife, retracting the knife. Another set of servo motors drives the screw slide rail module to move up and down to realize the peeling and cutting. The integrated multifunctional automatic machine has the characteristics of saving personnel and improving efficiency; the prod...

Specifications

Model No	WPM-25-290
Stripping Length	25-290mm
Cut Length Size	20-290mm
Applicable Wire Core A...	0.5-3.0mm ²
Power Supply	AC 220V 50HZ
Air Pressure	5-7KG
Operation Type	Integrated Multifunctional Automatic
Control System	Servo Motor Driven
Dimensions	900*500*1360mm
Special Features	Clip Outer Skin System, Anti-Pinch Functio...
Application	Multi-Core Sheath Wire Processing

Semi-Automatic Wire Stripping & Twisting Machine WPM-191

Description

Maximize Efficiency with theWPM-191 Semi-Auto Wire Stripping Twisting Machine: Precision & Speed Combined Introducing the WPM-191 Semi-AutoWire Stripping Twisting Machine, a powerhouse engineered for exceptional efficiency and unwavering precision in wire processing. Perfectly suited for both small workshops and larger manufacturing units, this versatile machine seamlessly strips and twists wires across a variety of gauges, delivering significant time and labor cost savings. This advancedWire Stripping And Twisting Machineboasts a user-friendly interface and intuitively adjustable settings, ensuring consistently high-quality results for every operation. Its robust construction guarantees exceptional durability and long-term reliability, making the WPM-191...

WPM-192

Automatic Braided Cable Brushing & Twisting Machine WPM-192

Description

Premium Shielded Wire Brush Machine – Braided Cable Brushing and Twisting Perfection (WPM-192)
Introducing theShielded Wire Brush Machine Braided Cable Brushing And Twisting WPM-192, a specialized machine engineered to provide exceptional wire preparation for braided cables. This high-qualityShielded Wire Brush Machineis designed to streamline your production process by efficiently brushing, separating, and twisting wires, ensuring a superior finish and consistent quality for your cable assemblies. The WPM-192 is the ideal solution for achieving professional-grade wire preparation with speed and precision. Key Product Functions and Benefits: TheShielded Wire Brush Machine Braided Cable Brushing And Twisting WPM-192offers a range...

Specifications

Product name	wire brushing and twisting machine
Product function	Brush wire, separate wire, twist wire
Length of twisted wire	5 – 60 MM
Twisted wire direction	Left-right adjustment
Speed of wire divider	Infinite speed change
Voltage	220 V/110V, 50 – 60 HZ
Power	10 W
Air pressure	4 – 6 KG/m²
Product weight	12.5 KG
Product size	320*310*200 MM
Number of brush wheels	3 MAX

Semi-Automatic Wire Stripping & Twisting Machine WPM-190

Description

Boost Your Wire Processing Efficiency with the WPM-190 Semi-Auto Wire Stripping Twisting Machine
Introducing theWPM-190 Semi-Auto Wire Stripping Twisting Machine, your ultimate solution for fast, accurate, and effortless wire preparation. This versatile machine seamlessly combines wire stripping and twisting functionalities, making it an indispensable tool for electricians, DIY enthusiasts, and anyone involved in wire processing. The WPM-190, a powerfulWire Stripping Twisting Machine, is engineered for both ease of use and efficiency, significantly streamlining your workflow and improving productivity. Precision and Convenience Combined in One Compact Machine The WPM-190 excels in delivering both precision and convenience. Itssemi-automa...

WPM-19

Automatic Pneumatic Wire Twisting Machine for Cable Harness WPM-19

Description

Automatic Pneumatic Wire Twisting Machine for Cable Harness WPM-19. All kinds of ground wires, braided wires, and isolation wires can be tightened, completely replacing manual work. The gripping hand adopts pneumatic control. When the air source is connected, the gripping hand will automatically open. When working, only need to hold the wire in, and lightly turn on the footswitch to complete the twisting operation. The automatic gripper adopts an exposed design so that the scattered copper wires are also easily placed. There is no need to adjust the elastic clamping wire when the wire diameter is different. This model is an upgraded version of the gas-electric twisting machine. The new automatic cable pulling device is added, and the training time for novices...

Specifications

Type	Automatic Telescopic Twisting Machine
Air Pressure	1.5-2.5 kg/Cmq
Power	AC 220V 50Hz 10W
Twisting Speed	1400 circle/s
Twisting Length	5-80mm (150mm customizable)
Wire Range	0.1-2 mm ²
Dimensions	L340 x W190 x H170 mm
Weight	12 KG
Control	Pneumatic + Footswitch
Application	Ground Wires, Braided Wires, Isolation Wir...

Multi-Core Parallel Wire Stripping Machine for AWG 24-34 WPM-012

Description

Maximize Wire Processing Throughput: TheMulti-Core Parallel Wire Stripping Machine WPM-012for High-Volume Efficiency Introducing the Multi-CoreParallel Wire Stripping Machine WPM-012, the ultimate solution designed for high-volume wire processing environments. This advanced machine is the ideal choice for electricians and manufacturers seeking to dramatically boost productivity. Leveraging its innovative multi-core capability, the WPM-012 efficiently strips multiple wires simultaneously, significantly increasing throughput while maintaining exceptional precision and consistency. With easily adjustable stripping lengths to accommodate a variety of wire sizes and a user-friendly interface for quick setup and intuitive operation, thisParallel Wire Stripp...

High-Speed Cable Stranding Twisting Machine WPM-20T

Description

Elevate Cable Manufacturing with the WPM-20T High-Performance Cable Stranding Twisting Machine. Introducing the WPM-20T Cable Stranding Twisting Machine, a powerhouse engineered for high-performance cable manufacturing. This advanced machine is designed to deliver unparalleled precision and efficiency in cable stranding and twisting processes. Utilizing cutting-edge technology, the WPM-20T expertly handles a diverse range of wire sizes and types, consistently ensuring top-quality results that meet the most demanding industry standards. With its exceptionally user-friendly interface and intuitive controls, operation and monitoring are simplified, making it perfectly suited for both small-scale and high-volume, large-scale product...

WPM-VPS

Vertical Pneumatic Wire Stripping Machine AWG 18-32

Description

Vertical Pneumatic Wire Stripping Machine AWG 18-32. Pneumatic electrical wire peeling machine for AC/DC, power cord, sheath wire, computer wire, electronic wire stripper. Pneumatic control, improved aircraft design, advanced and suitable diameter AWG#18-32# double moving cylinder, free of spring breakage. The two cylinders of oil and gas self-supply provide regular oil supply to the cylinder, reduce internal wear and prolong service life. Unique slide seat, stable reciprocating stroke, accurate cutting, and stripping. Pneumatic control, light and agile, is easy to operate. Debug the structure, and adjust the thickness of the line of sight. It is suitable for processing large and small wires and long and short wires. Such as AC/DC, power cord, sheath wire, compu...

Specifications

Wire Diameter Range	AWG #18-32
Operation Type	Pneumatic Control
Cylinder System	Double Moving Cylinders
Lubrication	Oil-Gas Self-Supply
Design	Improved Aircraft Design
Spring System	Free of Spring Breakage
Slide Seat	Unique Stable Reciprocating
Suitable Wires	AC/DC, Power Cord, Sheath Wire, Computer W...

Product Description

Easy Operation

This machine uses air pressure operation, and electromagnetic valve control.

Imported Quality Blade

The knife and clip mount distance is short, make the wire material of computer wire or special short easily handle.

Gas-electric Wire Stripping

Double-acting cylinder, no spring fracture; Strong power, more convenient to use

CE Certification

Through the CE certification, it has high quality and fast speed.

WPM-4F+T

Automatic Multi-Core Wire Stripping & Twisting Machine

Description

WPM-4F+T Multicore Wire Stripping and Twisting Machine is designed to efficiently strip and twist multiple wire cores simultaneously, dramatically increasing productivity and ensuring precision. The machine is specifically designed to strip and twist multiple wire cores simultaneously, maximizing throughput and significantly reducing processing time. It excels at processing small to medium thick cables, making it ideal for computer peripheral cables, telephone cables, side cables, audio cables, microphone cables, and similar wire types commonly used in communication and electronics industries. The compact and intelligently engineered design ensures the machine structure is tight, compact, and easy to integrate into various workspace layouts. Experience tr...

Specifications

Model Number	WPM-4F+T
Voltage	220V 50Hz / 110V 60Hz
Power	90W

WPM-3FA

Electric Heating Wire Stripping Machine for Braided Cable WPM-3FA

Description

Achieve Precision Wire Stripping with the WPM-3FA Electric Heating Wire Stripping Machine

Introducing the WPM-3FA Heating Wire Stripping Machine, a cutting-edge solution engineered to efficiently and precisely strip insulation from a wide variety of wire types. Leveraging innovative heating technology, this advanced machine delivers exceptionally clean and accurate cuts, ensuring minimal damage to delicate wire cores. The WPM-3FA is designed for ease of operation, featuring intuitively adjustable settings that cater to diverse wire sizes and insulation materials. This makes it an absolutely essential tool for electrical contractors, manufacturers, and DIY enthusiasts alike. Elevate your wiring projects to a new level of quality with the unparalleled...

Vertical Pneumatic Wire Stripping Machine for 30mm Wires WPM-4F

Description

Precision Wire Stripping, Vertical Efficiency: The WPM-4F Pneumatic Wire Stripping Machine Introducing the WPM-4F VerticalPneumatic Wire Stripping Machine, a meticulously engineered tool that redefines precision and efficiency in wire processing. This compact yet powerful machine, also known simply as aWire Stripping MachineorPneumatic Stripping Machine, is designed to streamline your workflow and deliver consistently high-quality wire preparation results. Perfectly compatible with both AC110V and 220V power supplies and requiring minimal air pressure (just 5-7kg), the WPM-4F is engineered for effortless stripping of wires up to 30mm in length. Its remarkably compact dimensions (280 x 200 x 320 mm) allow it to fit comfortably into any workshop environme...
